1 First Era: Invocator Birth

Character Name	Description
Sylthia, The Goddess of Currents	Her boon to Aelno wasn't born of goodwill but a curiosity on mortal ambition. Impressed in Sky Tempests, withdrawal, Altars only, cryptic prophecies.
Velora, Sea God (Mythological Figure)	Worshipped out of Azure Isles; Calmed storms and enabled seafaring. She is, of course, invisible and affects tides and tempests.
The Silent King (Demigod)	The Crowned Regent in Residence. Whispering statues remind those in ancient wars, his strange destiny on the sands of obsidian.

2 Second Era: Magic's Awakening

Character Name	Description
King Elion of Rein	Founder of the Golden Compact. He was a uniter, a moderate and diplomat amidst the magical reawakenings that many believed would tear his realm apart.
Mara the Flamebearer	Bearer of the First Flame. The Crimson Pact leader that once fought chaos with her blade alight.
Archmage Thales	Source of the Great Arcanum. Championed regimented magic and helped form the Stellar Council.

3 Third Era: The Wheel Beyond Time

Character Name	Description
Saipher, Starlit Oracle	Genderless cosmic starmap cloaked prophet. Talks about 'The Wheel Beyond Time', and comes during an epochal shift.
The Crimson Seer	A Blood-visioned mystic who had predicted the fall of civilizations during the Cataclysm.
Aelira Starborne	Renegade sorceress and Mother of the White Tower. Failed to keep Elemental Pacts, but eagerly embraced Forbidden Cosmic Lore.
General Varn of the Rift	Would-be conqueror who wore Voidsteel, he employed brutal methods and ushered in a period of unity among splintered small kingdoms.
Yren, Keeper of Silent Wastes	Guardian of forgotten archives and abandoned relics. It is said that it protects against temporal distortions.

Character Name	Description
Queen Elionara of the Reclamation Archmagus Vaelin Greaves Commander Xara Volund	Visionary Monarch who attempted to integrate the understandings of magitech and the arcane. Led the creation of legal technomagic guilds, and protected magic conurbations from corporate operations.
Professor Nymos Thelen Estimate Sarun	Wrote the Arcane Equilibrium Act defining how magical technology should be used. Natural enemy of unlicensed rune engineering.
	Commanded the militant wing of the Crimson Pact during its wars on and over the White Tower. Half the Azure frontier was in tatters where her magi-mechanical army had wrought devastation upon it.
	Pioneer in time-weaving spells and paradox engineering. Reputed to have been cast into the time vortex while testing a recursive starlight function.
	Mapped out the Skyvault Anomalies. Crucial in interpreting signals from the unvested and set the stage for Fourth Era space-magic fusion.

4 Fourth Era: Aeltas at Rest in Queue

Character Name	Description
Aetas the Undying Lyra Moonfall	A spectral warlord that rises from ruins and is celebrated as a king by the displaced survivors, even though he has no recollection.
	A bard of the rebel ranks, sowing tales of unity between factions from lullabies and lucid dreams.
Kairo of the Ashen Pact Selene of the White Spire	Tiny necro-alchemist hellbent on sparking an age where Titans walk among mortals, with terribly unsafe rituals.
	Last archmage of dying order. Works to save magical history in hidden libraries.
